[1.0] LOGIN PAGE

1.1 USER INTERFACE

Update the system logo to the sample UI format below.

Use [CCA L1] for the system logo in login page.

DESIGN ASSETS SOURCE:

https://drive.google.com/drive/folders/1S5h9I7EJ47lITsaqAoDNiV85f223aNA4?usp=drive_link

[2.0] PRE-REGISTRATION PAGE

2.1 USER INTERFACE

2.1.1 PAGE SIZE

Make the Pre-Registration page in full screen.

2.2 CONTENT

2.2.1 PAGE FLOW

Page 1: [CCA F1] [CCA F5]

- >> Make a printable PDF format since it needs hard copy to be signed by the student/parent.
- >> Merge the [CCA F5] ID Information form in the Student Information. Make sure there's no repeated info fillout to avoid repeated data entry.

Page 2: [CCA F2]

- >> Make a printable PDF format since it needs hard copy to be signed by the student/parent.

Page 3: [CCA F3]

- >> Make a printable PDF format since it needs hard copy to be signed by the student/parent.
- >> Make a checkbox each number that the student understands all the Waiver for Progressive Implementation of Face-to-Face Classes.

Page 4: [CCA F4.1] [CCA F4.2]

- >> Make a printable PDF format since it needs hard copy to be signed by the student/parent.
- >> Make a checkbox after the bottom of the page that the student/parent understands all the Consent & Data Privacy form.

After the submit button, make sure it displays the success submission of the pre-registration and inform the student that all the information will be printed to be signed by the student/parent/guardian onsite. And also inform the student that they need to go onsite for entrance exam/assessment.

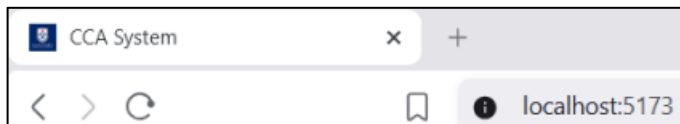

FORM ASSETS SOURCE:

https://drive.google.com/drive/folders/1FkvtYqXWrURM3R11--N0jfw5YaxTJzmA?usp=drive_link

[3.0] SYSTEM DESIGN

3.1 WEB BROWSER TAB DESIGN

Change the web tab name “CCA System” to “CCA EduSys”.

Change the web tab icon. The new web tab icon is in the Design Assets Source below. Use [CCA L2.1] in Dark Mode, use [CCA L2.2] in Light Mode.

DESIGN ASSETS SOURCE:

https://drive.google.com/drive/folders/1S5h9I7EJ47lITsaqAoDNiV85f223aNA4?usp=drive_link

3.2 SYSTEM LOGO

Update this current system logo.

The new system logo is in the Design Assets Source below. Use [CCA L3.1] in Dark Mode, use [CCA L3.2] in Light Mode. Make sure that the logo is uniformed to all accounts.

DESIGN ASSETS SOURCE:

https://drive.google.com/drive/folders/1S5h9I7EJ47lITsaqAoDNiV85f223aNA4?usp=drive_link

[4.0] ADMISSION ACCOUNT

ADMISSION focuses only on handling pre-registered or the new students enrolled in CCA. So make sure that the system features are only beneficial to the pre-registered or new students.

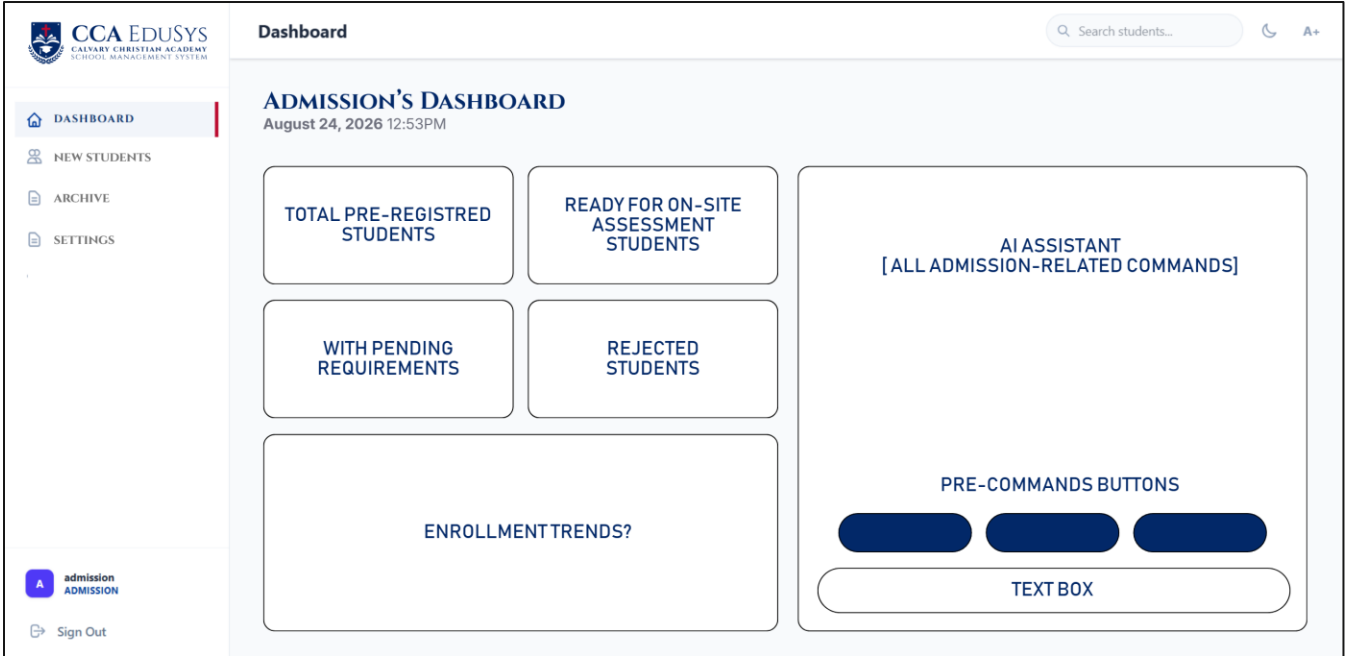

4.1 NAVIGATION BAR

>> This will be the options needed in the navigation bar of ADMISSION.

- DASHBOARD
- NEW STUDENTS
- STUDENT ARCHIVE
- SETTINGS
- ADMISSION PROFILE NAME, ROLE, & ICON
- SIGN OUT BUTTON

4.2 DASHBOARD

Update the dashboard overview. Display all the ADMISSION related tiles in the overview. If you have other tiles to add in the overview, go ahead. Just Follow the sample UI design below. Just make sure the CHATBOT block is large like on the sample UI.

4.2.1 AI-ASSISTANT [ADMISSION-RELATED COMMANDS]

- >> DO NOT make the AI-Assistant in pop-up setup. Bring the AI-Assistant to the overview blocks because it needs to be seen first by the ADMISSION staff.
- >> ADD some sample admission-related commands above the text box to show what our AI-Assistant can do and give ideas to the ADMISSION staff. Add as many as you can.
- >> ADD recent conversations or history conversations in chatbot to help ADMISSION staff recap their previous conversations to our AI-Assistant.
- >> ADD features on AI-Assistant that will help or improve the quality service of the ADMISSION.

4.2.2 PAGE HEADER

- >> ADD “ADMISSION’S DASHBOARD” in the header.
- >> ADD the current DATE and TIME as the subheader of the dashboard page.
- >> Make sure the COLORS, FONT, FONT SIZE used in the page title are uniformed to all page titles in the system.

4.2.3 TOTAL PRE-REGISTERED STUDENTS

- >> Either make the title shorter that fits in the dashboard block.
- >> This will count all the total number of students pre-registered on the system.
- >> DISPLAY the total number of students pre-registered.

4.2.4 READY FOR ON-SITE ASSESSMENT STUDENTS

- >> Either make the title shorter that fits in the dashboard block.
- >>If the pre-registered student is complete in requirements, checked and verified already by the ADMISSION staff, they are now ready for on-site assessment/entrance exam.
- >> DISPLAY the number students ready for on-site assessment.

4.2.5 REJECTED STUDENTS

- >> This will count the rejected application of the student.
- >> DO NOT instantly remove the student info to the system after the rejection.
- >> ADD an Archive or Recently Deleted to store all the info of rejected students.

4.2.6 ENROLLMENT TRENDS

- >> EXPLAIN all the contents displayed in this tile. What is the purpose of this tile?
- >> If not Enrollment Trends, display another admission-related content to the overview tile.

REMOVED FEATURES:
NAVIGATION BAR

- Students – Only featured in REGISTRAR account.
- Student Registration – Renamed “NEW STUDENTS”
- Digital Forms – Moved in PRE-REGISTRATION page.

OVERVIEW TILES

- Total Body – Renamed as “Total Pre-Registered Students”
- Active Status – Renamed as “Ready for On-Site Assessment”
- Pending Action – Renamed as “With Pending Requirements”
- Lacking Docs – Renamed as “Rejected Students”
- Upcoming Events – Not admission-related feature.
- Recent Announcements – Not admission-related feature.
- Student Population by Grade – Not admission-related feature.

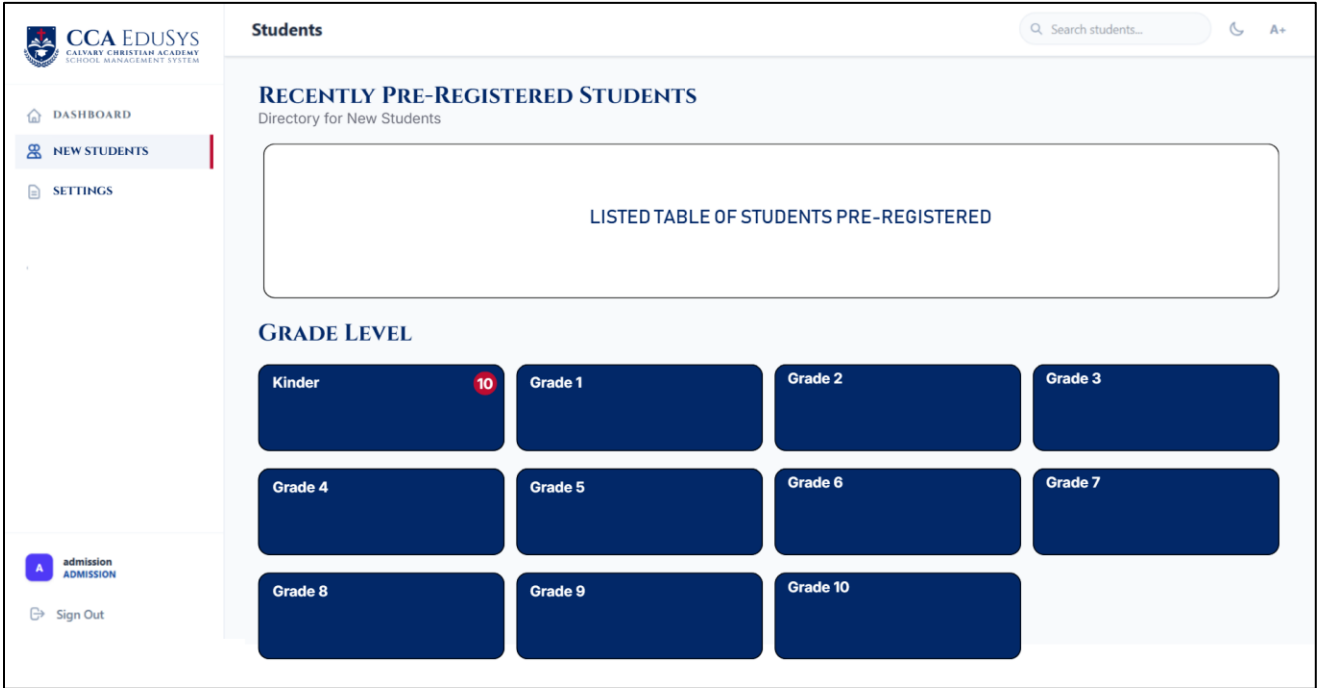

CHATBOT POP-UP BUTTON

- Changed into an overview block.

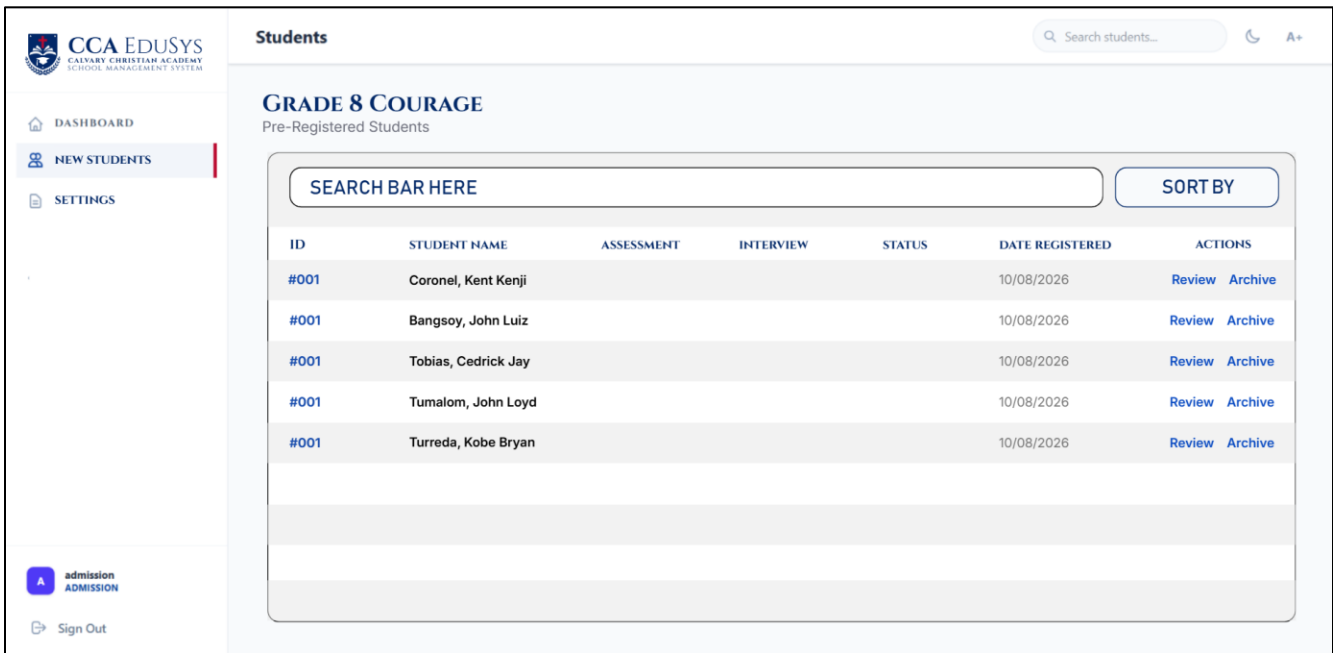

4.3 NEW STUDENTS

Kindly follow the sample UI template below. It's up to you on the design of the buttons of each pre-registered students per level, as long as it is well-organized or filtered.

Avoid too much scroll downs sa system.

This is the Page 1 sample UI of NEW STUDENTS menu.

This is the Page 2 sample UI of NEW STUDENTS menu.

This is the page after the admission clicked the Grade 8 – Courage button. Saka lang lalabas yung list of pre-registered students na for Grade 8.

4.3.1 LIST OF PRE-REGISTERED STUDENTS

- ADD ARCHIVE button. And ADD STUDENT'S ARCHIVE button, dito yung place ng mga rejected application ng students
- When clicked REVIEW, lahat ng na-fillout ng students, which is yung digital forms [REFERENCE: \[2.2\] PAGE FLOW](#) is lalabas sa review, and then, saka iccontact for onsite yung students for onsite signature ng forms, submission of requirements.

CLARIFICATION

SF9 LAYOUT

- CLARIFICATION lang about sa SF9 Template sa mga new students, para saan yon? Since hindi naman need ng digital SF9 sa mga new students. If wala, REMOVE na lang siya sa ADMISSION account.

REMOVED FEATURES

STUDENT REGISTRATION NAVIGATION

- Merged in NEW STUDENTS navigation.

DIGITAL FORMS

- Merged in NEW STUDENTS navigation.

4.4 OTHERS

4.4.1 PASSWORD SECURITY

- Dapat may required length, characters, and na memmeasure yung strong password if mag change ng password yung user.

[5.0] REGISTRAR ACCOUNT

REGISTRAR focuses on handling the current students and the upcoming students in CCA. So, make sure that the system features are beneficial to both new and existing students.

5.1 SYSTEM DESIGN

- Update the System Logo
- Make the Font Style, Font Size, & Font Color uniformed to the whole system.

5.2 NAVIGATION BAR

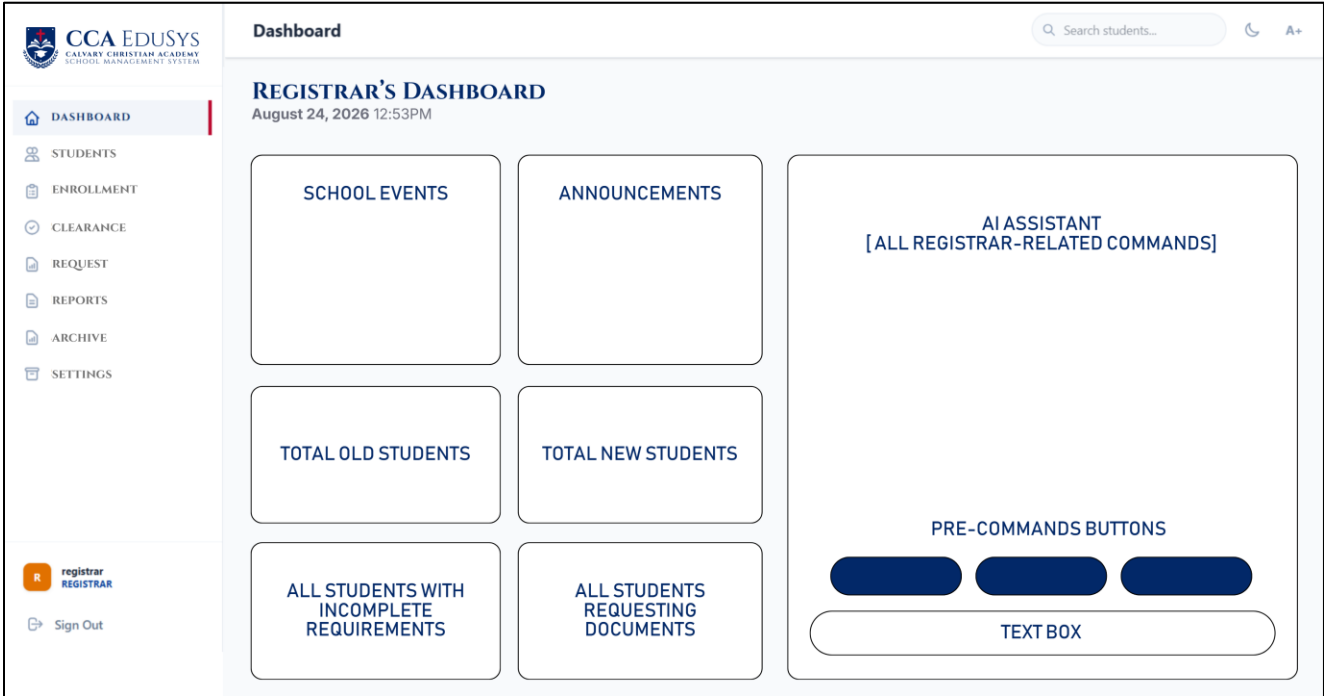

>> This will be the options needed in the navigation bar of REGISTRAR.

- DASHBOARD
- STUDENTS
- ENROLLMENT
- REQUEST
- CLEARANCE
- REPORTS
- ARCHIVE
- SETTINGS
- REGISTRAR PROFILE NAME, ROLE, & ICON
- SIGN OUT BUTTON

5.3 DASHBOARD

Regarding to the design and sizing of the overview tiles, it is up to you as long as it follows the flow on the sample UI below.

Note: Make the dashboard fit to screen only. NO SCROLLING.

This is the sample UI of the REGISTRAR DASHBOARD.

Note: Make sure to put REGISTRAR'S DASHBOARD as title text, while the current date and time as the subtext. Apply this design to other

5.3.1 AI-ASSISTANT [REGISTRAR-RELATED COMMANDS]

- >> DO NOT make the AI-Assistant in pop-up setup. Bring the AI-Assistant to the overview blocks because it needs to be seen first by the REGISTRAR staff.
- >> ADD some sample admission-related commands above the text box to show what our AI-Assistant can do and give ideas to the ADMISSION staff. Add as many as you can.
- >> ADD recent conversations or history conversations in chatbot to help REGISTRAR staff recap their previous conversations to our AI-Assistant.
- >> ADD features on AI-Assistant that will help or improve the quality service of the ADMISSION (Requesting documents, Generate reports, etc.)

5.3.2 SCHOOL EVENTS

- >> REGISTRAR can post, edit, control the school calendar and school events in the system.
- >> FIX the error. Hindi nag p-post yung events.
- >> dapat may school calendar, either when it is clicked and may view in full view, merong mga marked events and etc.

5.3.3 ANNOUNCEMENTS

- >> REGISTRAR can post announcements, edit, and control announcements made by the REGISTRAR only.
- >> REGISTRAR can select target audience specific each announcement

Example: GR8 STUDENT CLEARANCE (Monday, August 24, 2026)
Audience Selected: GRADE 8

5.3.4 TOTAL OLD STUDENTS

- >> Either make the title shorter that fits in the dashboard block.
- >> This will count all the total number of old students or current students.
- >> DISPLAY the total number of old/current students.

5.3.5 TOTAL NEW STUDENTS

- >> Either make the title shorter that fits in the dashboard block.
- >> This will count all the total number of new students.
- >> DISPLAY the total number of new students.

5.3.6 ALL STUDENTS WITH INCOMPLETE REQUIREMENTS

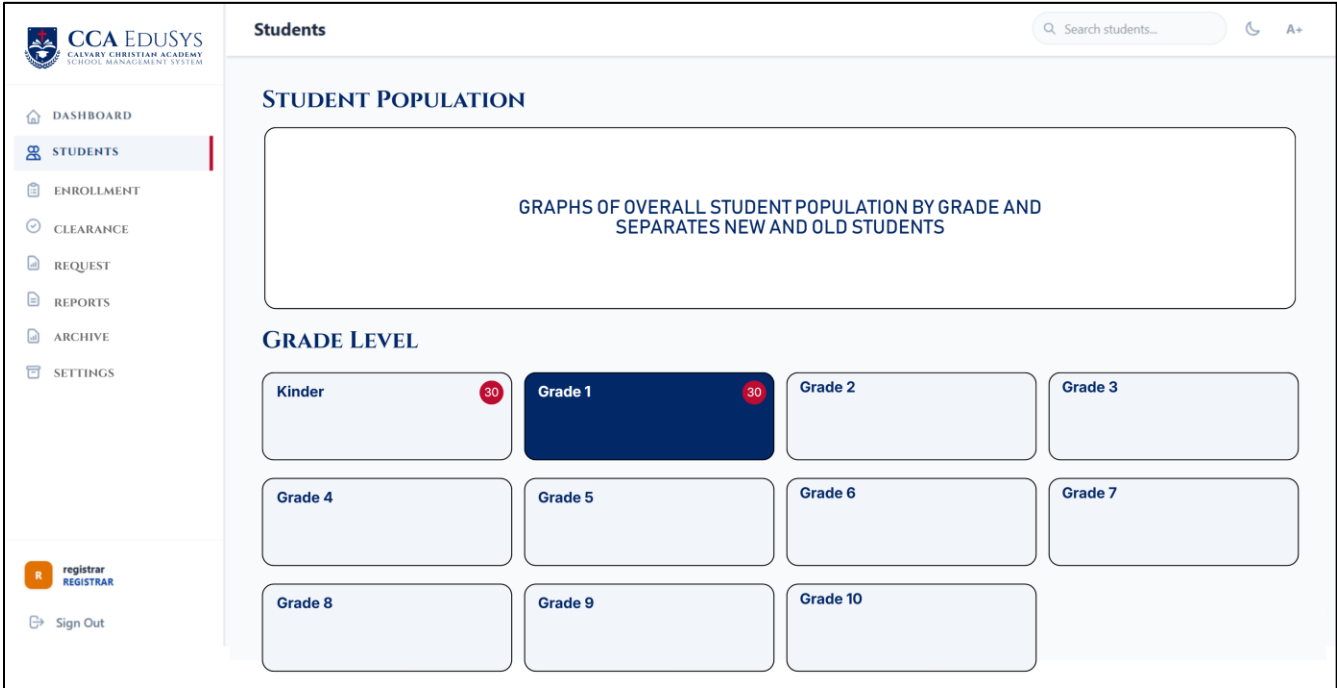

- >> Either make the title shorter that fits in the dashboard block.
- >> This will count all the total number student lacks in documents or requirements either new or old student.
- >> DISPLAY the total number of students with incomplete requirements

5.3.7 ALL STUDENTS REQUESTING DOCUMENTS

- >> Either make the title shorter that fits in the dashboard block.
- >> This will count all the total number of students requesting documents.
- >> DISPLAY the total number of students requesting documents.

5.4 STUDENTS

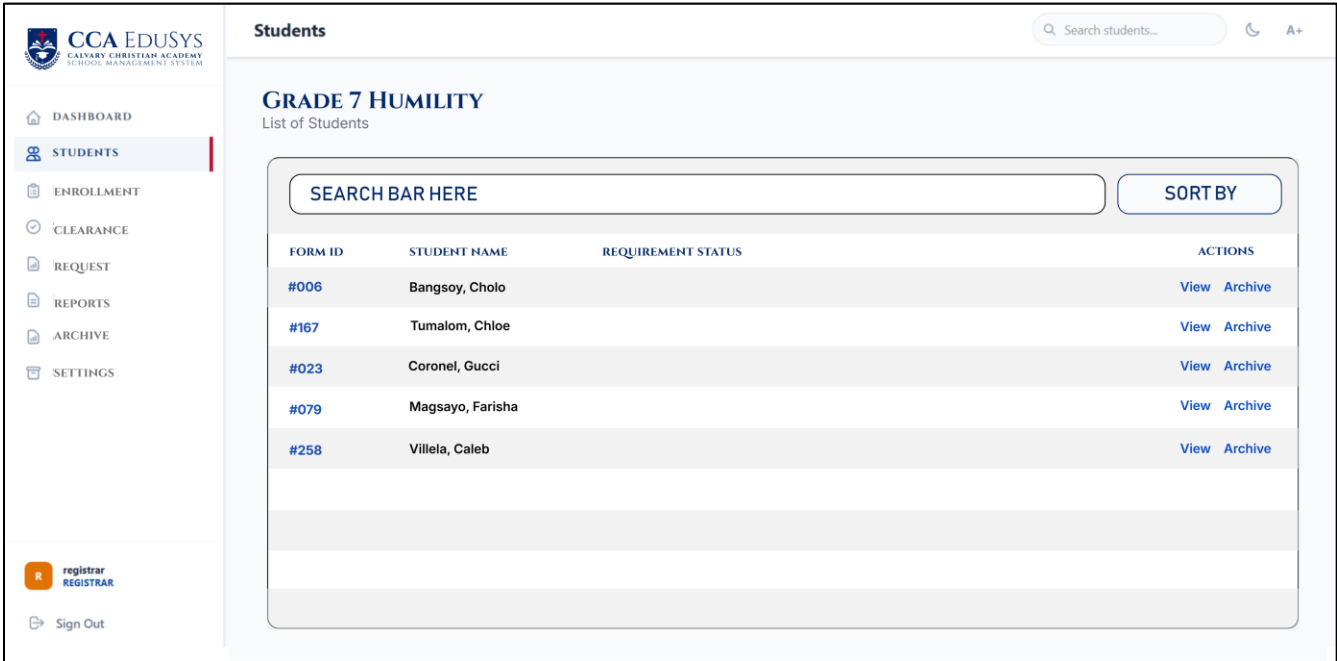

STUDENTS is for the current students of CCA. All information of the students is stored here.]
Make this page on fit-to-screen. AVOID SCROLLING.

This is the Page 1 sample UI of the STUDENTS navigation.

5.4.1 GRADE LEVEL TILE BUTTON

>>Make the tile BLUE when it is hovered (make sure to apply this to all entities/modules in the system.)

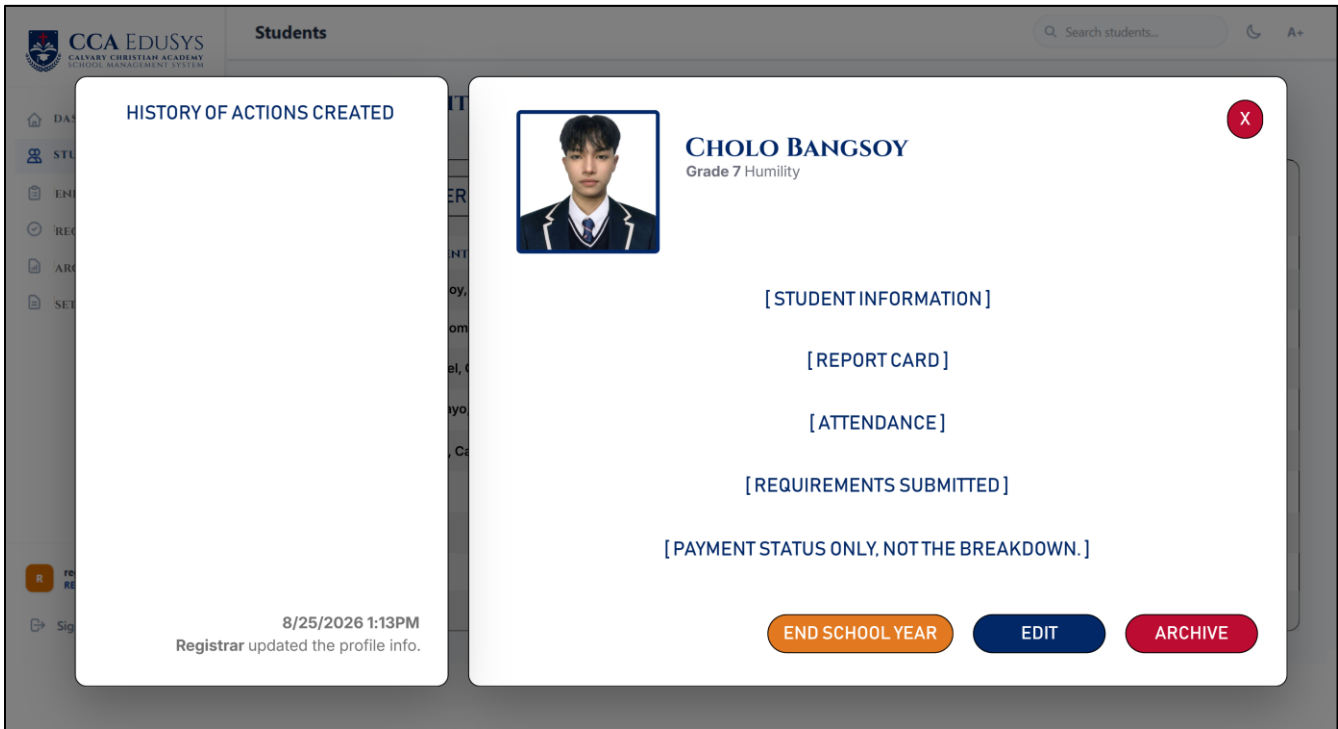

This is the Page 2 sample UI of the STUDENTS navigation.

5.4.2 STUDENTS TABLE

>> Make the TABLE list of students only scrollable.

If the user clicked the ‘VIEW’ action button, the student’s profile and history of actions created will pop-up like on the sample UI below.

This is the Page 3 sample UI of the STUDENTS navigation.

5.4.3 STUDENT INFO WINDOW

- >> Make the END SCHOOL YEAR in each student, not in general dahil hindi naman sila sabay-sabay mag reenroll next school year, so individually ieend yung school year, and proceed to next grade level and new school year.
- >> ADD the history of actions created by the entity. Para informed yung student and lahat ng mag vview ng student info kung ano yung mga actions na ginawa sa student info.
- >> DISPLAY the PAYMENT STATUS only. Not the total breakdown or the amount because payment info is to be accessible/viewable by the CASHIER only.

EXAMPLE: PAYMENT STATUS: TOTALLY CLEARED (no outstanding balance)

These are the other options:

- >> TEMPORARILY CLEARED (with promissory note)
- >> WITH OUTSTANDING BALANCE
- >> ADD ARCHIVE, EDIT, & EXIT/CLOSE button. The design of the button is up to you, as long as it follows the UI above.
- >> make sure that it is centralized in all entities/modules.

5.5 ENROLLMENT

This is where both OLD and NEW students coming for enrollment.

5.5.1 ENROLLMENT SUBMISSION TO REGISTRAR

- >> If OLD student, They can enroll to next grade level in their own CCA EduSys account.
- >> If NEW student, ADMISSION will submit their enrollment, IF the student is done with assessment test and interview.

Kindly follow the sample UI of the ENROLLMENT below.

SORT BY

FORM ID	STUDENT NAME	STUDENT STATUS	DATE SUBMITTED	ACTIONS
#006	Bangsoy, Cholo	New Student	08/29/2026	View Archive
#167	Tumalom, Chloe	Old Student		View Archive
#023	Coronel, Gucci			View Archive
#079	Magsayo, Farisha			View Archive
#258	Villela, Caleb			View Archive

This is the sample UI format for ENROLLMENT.

5.5.2 ROW HIGHLIGHT

- >> If NEW student, ADD an identifier that will automatically recognized as NEW student. Like in the sample UI above, the NEW student has a green row highlight, Indicating that this is NEW student.

5.6 CLEARANCE

This is where all the student’s clearance process are stored.

5.6.1 CLEARANCE FLOW

- This is the clearance steps:
- 1ST: ALL OF THE SUBJECTS OF THE STUDENT
 - 2ND: LIBRARY
 - 3RD: CLINIC
 - 4TH: CASHIER
 - 5TH: PRINCIPAL
 - 6TH: REGISTRAR

Student cannot proceed with the next step if they are not cleared with the pre-requisite clearance.

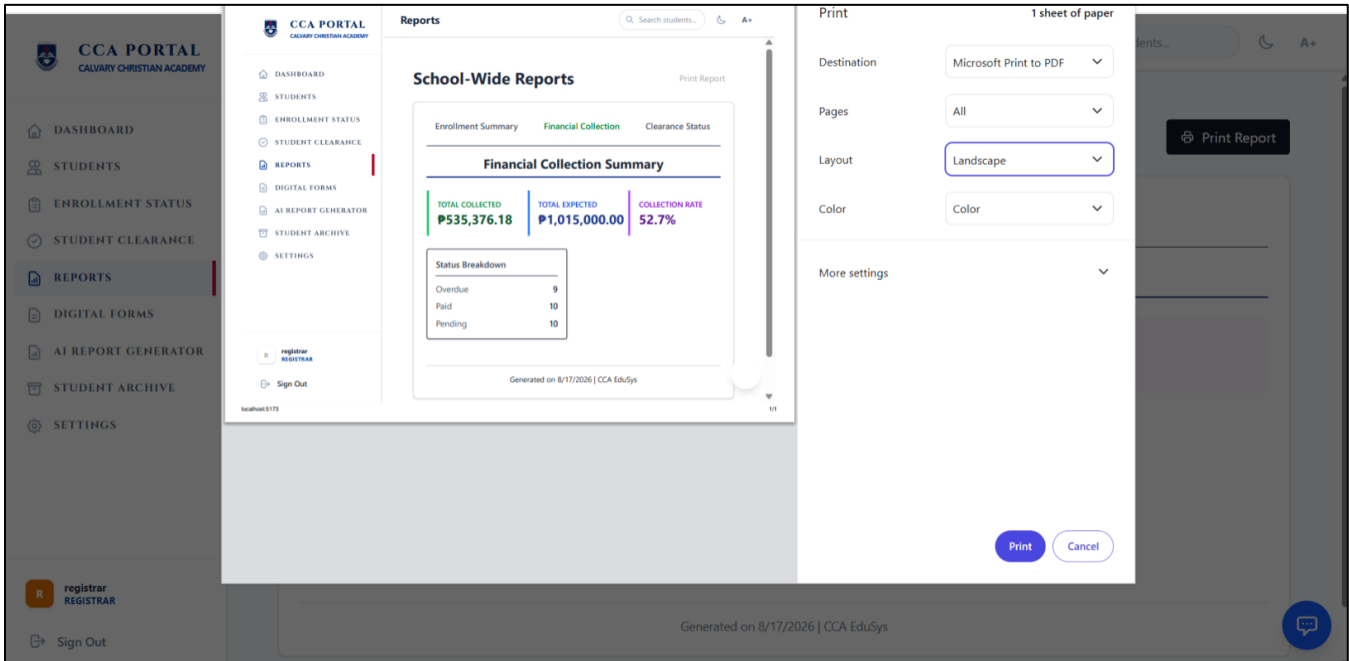

5.7 REQUEST

This is where students will request documents (TOR, Form 137, Certified True Copies, etc.). All structures and features in this navigation is up to you, Either Student can file a request in their account.

Develop a draft and I'll check it.

5.8 REPORTS

This is where all the REGISTRAR-RELATED reports stored.

5.8.1 CONTENTS

The contents should be REGISTRAR-RELATED only.

>> Student Population. It should be comparable to previous school year. How many NEW students this school year than previous. Also, Total students.

It should also indicate the breakdown:

- Dropouts
- Transferees
- Expelled

>> Student Academics. It should indicate how many % does students passes in each subject, from 75-80, 81-85, 86-90, 91-95, 96-100.

EXAMPLE:

SY: 2025-2026

Math: 50% Students with 96-100 grade in this quarter

English: ===

SY: 2024-2025

Math: 30% Students with 96-100 grade in this quarter

English: ===

5.8.2 PRINT LAYOUT

>> FIX the print layout. Hindi dapat kita yung navigation bar, dapat it can print into a paper size(A4, Letter, Legal), with portrait and landscape layout.

5.9 ARCHIVES

>> ADD Archives and dito i-store lahat ng rejected, and removed students. Hindi pwedeng totally alisin yung info nila sa system.

>> SEPARATE each students each level for more easy retrieval

5.10 OTHERS

5.10.1 PASSWORD SECURITY

- Dapat may required length, characters, and na measure yung strong password if mag change ng password yung user.

REMOVED FEATURES

DIGITAL FORMS NAVIGATION

- MOVED in the PRE-REGISTRATION.

AI REPORT GENERATOR

- MOVED in the chatbot.
